SKOOKUM

ALL COMPOSITE COMPONENTS, NO WOOD

With aluminum and composite material construction, the trailer is ready to be part of your next adventure. With an independent suspension, the Skookum is durable enough to handle rough roads, yet light enough that a small SUV can pull it.

The Skookum rugged off-road trailer has all the baseline luxuries you need without sacrificing the camping experience you seek.

AFFORDABLE ADVENTURE!

One of the most affordable overland trailers on the market and light enough to pull behind even the smallest of vehicles - with no compromise to quality and functionality.

Our goal is to provide a camper that is always ready to go so that you can spend more time camping, and less time packing. Trailers with very short setup time that can carry all your gear for a weekend adventure or an entire year long expedition.

Bench Storage - 50.25"x16"x10"

Bed Storage - 54.25"x19"x10"

"Skookum" is a Pacific Northwest word with deep roots in Indigenous Chinook jargon, meaning strong, powerful, reliable, and built to endure. It's used to describe something that's exceptionally solid or impressive—tough enough for the job and then some. When something is **skookum**, it's not just good... it's rock-solid, trustworthy, and made to perform.
